

of such permits be provided and maintained on file with the development permit;

c) Flood damage will be reduced to the extent feasible;

d) Estimates of the flood carrying capacity within the altered or relocated portion of a watercourse have been formulated using accepted engineering principles and that information which demonstrates how the flood carrying capacity will be maintained has been provided; and

e) The proposed development does not adversely affect the carrying capacity of affected watercourses. For purposes of this ordinance, "adversely affects" means that the cumulative effect of the proposed development when combined with all other existing and anticipated development will increase the water surface elevation of the base flood more than one foot at any point.

2) **Review and Use of Any Other Base Flood Data.** When base flood elevation data has not been provided in accordance with Article 3, Section B, the Floodplain Administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal or state agency, or other source, in order to administer Article 5.

3) **Notification of Other Agencies:**

a) Notify adjacent communities, the Kentucky Division of Water, and any other federal and/or state agencies with statutory or regulatory authority via certified mail prior to any alteration or relocation of a watercourse, and

b) Submit evidence of such notification to the Federal Insurance Administration, Federal Emergency Management Agency (FEMA).

4) **Floodplain Development Permit Documentation.** For each Floodplain Development Permit case, obtain documentation deemed appropriate by the Floodplain Administrator and maintain said documentation for public inspection, and make available as needed, the following types of information:

a) Certification required by Article 5, Section B (1) (lowest floor elevations) as shown on a completed and certified Elevation Certificate. Verify and record the actual elevation (in relation to Mean Sea Level) of the lowest floor (including basement) of all new or substantially improved structures, in accordance with Article 4, Section B (2).

b) Certification required by Article 5, Section B (2) (elevation or flood-proofing of nonresidential structures) as shown on a completed and certified Flood-proofing Certificate. Verify and record the actual elevation (in relation to Mean Sea Level) to which the new or substantially improved structures have been flood-proofed, in accordance with Article 4, Section B (2).

c) Certification required by Article 5, Section B (3) (elevated structures).

d) Certification of elevation required by Article J, Section E (I) (subdivision standards).

e) Certification required by Article 5, Section B (5) (floodway encroachments).
