

A. This section regulating unmanaged and managed vegetation shall be proactively and uniformly enforced and apply to all property within the county limits. However, any property exempted under state law shall be exempt from this provision.

B. Aesthetic judgments shall not be a consideration in determining required compliance under this section.

C. The county shall promptly notify the property owner of all applicable rights, including right of appeal.

D. No agent of the county shall enter upon or take action upon private land without the providing due process law.

Section 302.10 is added:

§ 302.10 Public ways not to be obstructed. No owner, occupant or person otherwise responsible for the care and maintenance of premises shall construct, place or otherwise allow the construction or placement of any item that, in whole or in part, extends beyond the property line of the premises into space comprising a public way as defined in Section 202, General Definitions. One example of a violation of this section is a basketball goal, though mounted, whether temporarily or permanently, on the premises, which extends beyond the property line into the public way (the right-of-way often includes beyond the curb and sidewalk. All of which is part of the public way).

§ 304 Exterior Structure

§ 304.14 Insect screens The period during which insect screens are required is from April 1 to December 1.

§ 602 Heating Facilities. § 602.3 Heat supply. The period during which the temperature must be maintained according to this section is from October 1 to April 15.

§ 602.4 Occupiable work spaces. The period during which the temperature of indoor occupiable workspaces must be maintained according to this section is from October 1 to April 15.

Section 704.3 is omitted and the following language substituted in its stead:

§ 704.3 Power source.

The owner of premises may continue to use battery-powered smoke detectors if the premises have a sufficient number of existing battery-powered smoke detectors in operational condition. Whenever the premises are renovated or otherwise modified in such a manner to provide accessible installation of primary power to smoke alarms from building wiring from a
