(q) "Pole" means a utility, lighting, or similar Pole made of wood, concrete, metal, or other material, located or to be located within the Rights-of-way. The term does not include a Tower or Support structure.

(r) "Road" or "Street" or "Right-of-way" shall mean the surface of and the space above and below any public road, street, highway, freeway, lane, path, public way or place, sidewalk, alley, court, boulevard, parkway, drive or easement now or hereafter held by the Government for the purpose of public travel and shall include other easements or rights-of-way as shall be now held or hereafter held by the Government which shall, within their proper use and meaning entitle the Government and its Grantee to the use thereof for the purposes of installing or transmitting Telecommunication System transmissions over Poles, wires, cables, conductors, ducts, conduits, vaults, manholes, amplifiers, appliances, attachments, and other property as may be ordinarily necessary and pertinent to a Telecommunication System.

(s) "Shall" is mandatory, not merely directive.

(t) "Small wireless facilities" are Wireless facilities that meet each of the following conditions:

(1) The Facilities are mounted on Poles, Towers, or Support structures fifty-five (55) feet or less in height including their antennas;
(2) Each antenna associated with the deployment, excluding associated antenna equipment, is no more than three (3) cubic feet in volume;
(3) All other Wireless equipment associated with the structure, including the Wireless equipment associated with the antenna and any associated equipment on the structure, including collations, is no more than fifteen (15) cubic feet in volume, cumulatively. The following types of associated, ancillary equipment are not included in the calculation of equipment volume: electric meter, telecommunications demarcation box, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs for connection of power and other services;
(4) The Facilities do not require antenna structure registration under federal law;
(5) The Facilities do not result in human exposure to radiofrequency radiation in excess of the applicable safety standards provided in federal law; and
(6) Small wireless facilities do not include Poles, Towers, or Support structures.

(u) "Support structure" means a structure in the Rights-of-way other than a Pole or a Tower to which a Wireless facility is attached at the time of the application for an Installation permit.

(v) "Telecommunications Service" means any service provided for consideration for the purpose of provision, transmission, conveyance, or routing of information including, but not limited to, voice, video, images data, or any other information signals without regard to the transmission protocol employed, whether or not the transmission medium is owned by the provider itself and whether or not the transmission medium is wireline. As used in this definition, the word "video" does not pertain to Cable Service. By way of example, and not limitation, Telecommunications Service includes, but is not limited to the following:
